

Investor Presentation – November 2021
TSX-V: XND OTCQB: XNDRF FSX: 1XI

Our Mission

This presentation of Xander Resources is for information only and does not constitute an offer to buy, sell, issue or subscribe for, or the solicitation of an offer to buy, sell or issue, or subscribe for, any securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. The information contained herein is subject to change without notice and is based on publicly-available information, internally-developed data, and other sources. Where any opinion or belief is expressed in this presentation, it is based on the assumptions and limitations mentioned herein and is an expression of present opinion or belief only. No warranties or representations can be made as to the origin, validity, accuracy, completeness, currency or reliability of the information. Xander Resources disclaims and excludes all liability (to the extent permitted by law), for losses, claims, damages, demands, costs and expenses of whatever nature arising in any way out of or in connection with the information in this presentation, its accuracy, completeness or by reason of reliance by any person on any of it.

This presentation should not be construed as legal, financial or tax advice to any individual, as each individual's circumstances are different. Investors should consult with their own professional advisors regarding their particular circumstances.

Certain statements in this presentation are “forward-looking statements”. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always using words or phrases such as “expect”, “seek”, “endeavour”, “anticipate”, “plan”, “estimate”, “believe”, “intend”, or stating that certain actions, events or results may, could, would, might or will occur or be taken, or achieved) are not statements of historical fact and may be “forward-looking statements”. Forward-looking statements are based on expectations, estimates and projections at the time the statements are made that involve a number of risks and uncertainties which would cause actual results or events to differ materially from those presently anticipated. Forward-looking statements are based on expectations, estimates and projections at the time the statements are made and involve significant known and unknown risks, uncertainties and assumptions. A number of factors could cause actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking. Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results, performance or achievements could vary materially from those expressed or implied by the forward-looking statements contained in this document. Investors should not place undue reliance on these forward-looking statements. Although the forward-looking statements contained in this presentation are based upon what Xander Resources currently believes to be reasonable assumptions, Xander Resources cannot assure prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. Except as required by law, Xander Resources does not have any obligation to advise any person if it becomes aware of any inaccuracy in or omission from any forward-looking statement, nor does it intend, or assume any obligation, to update or revise these forward-looking statements to reflect new events or circumstances.

Management, the Board, and Advisors

Deepak Varshney, P.Geo. – Chief Executive Officer

- ▶ Over 10 years of experience in the capital markets and mineral exploration and development sector.
- ▶ Experience includes being CEO of multiple TSX-listed issuers, including Usha Resources Ltd. and Orcus Resources Ltd.
- ▶ Has been responsible for raising millions of dollars in equity financings.
- ▶ Bachelor of Science degree specializing in Geology from Simon Fraser University.

Andrew Tims, P.Geo. – QP

- ▶ Exploration geologist with over 30 years of experience working throughout Manitoba, Ontario and Quebec, spending significant time in the Kirkland Lake-Timmins, Red Lake gold camps plus the Wabigoon area of Northwest Ontario where Usha Resources' Nicobat Project is located.
- ▶ Worked for major companies including Teck Resources and Hemlo Gold Mines in Hemlo gold camp, as well as junior exploration companies.
- ▶ Joined Rainy River Resources, in 2006, as a senior exploration geologist until it was taken over by New Gold in 2013, where he was part of the exploration team that developed the Rainy River resource from 550 000 ounces of gold in 2005 to over six million when it was acquired by New Gold.

Adrian Smith, P.Geo. – Director

- ▶ Over 10 years of experience working in the Mining and Exploration industries.
- ▶ Former Underground Mine Geologist and was involved in successfully identifying, modeling, and producing ore in addition to known reserves.
- ▶ Extensive exploration experience across North America.
- ▶ Currently CEO of ArcPacific Resources.
- ▶ Board member of ML Gold Corp. and Go Cobalt Mining Corp.

James Walker – Director

- ▶ Over 10 years of experience in the capital markets and mineral exploration and development sector.
- ▶ Extensive experience in engineering and project management; particularly within mining engineering.
- ▶ Currently CEO of Ares Strategic Mining.
- ▶ Board member of Bayhorse Silver Inc. and Orcus Resources Ltd.

Management, the Board, and Advisors

Jim Hirst, B.Comm. – Director

- ▶ Over 40 years of experience in the capital markets and mineral exploration and development sector.
- ▶ Extensive experience in operations and project management; has acted for several private and publicly traded companies in various capacities including President, CEO and Corporate Secretary.
- ▶ Founded Canova Resources Ltd., which successfully drilled the Yellow Jacket property near Atlin, British Columbia, Canada, resulting in a significant hard rock gold discovery and subsequent option agreement to the Homestake Mining Company.

Paul McGuigan, P.Geo. – Advisor

- ▶ Over 45 years of international experience in economic geology and mineral exploration management, spanning grassroots exploration through to mine feasibility studies and mining operations.
- ▶ Geological expertise includes iron oxide-copper-gold (IOCG), volcanogenic massive sulphide, porphyry Cu-Mo-Au, epithermal and orogenic gold, platinum, and diamond deposits.
- ▶ Extensive exploration experience across North America.
- ▶ Has held directorship positions in several publicly listed mining companies and is experienced with corporate governance, multi-party negotiations, public disclosure, compliance, and fund-raising for mineral exploration and mine development projects.

Dwayne Yaretz – Director

- ▶ Over 25 years of experience in the capital markets and mineral exploration and development sector.
- ▶ Extensive experience in operations and project management; has acted for several private and publicly traded companies in various capacities including President, CEO and Corporate Secretary.
- ▶ Wide breadth of board experience including technology companies involved in clean-tech, agri-business, sustainable packaging technologies, consumer electronics and state-of-the-art thermal and infrared imaging cameras deployed in the security and industrial sectors.

Michael Dehn, P.Geo. – QP

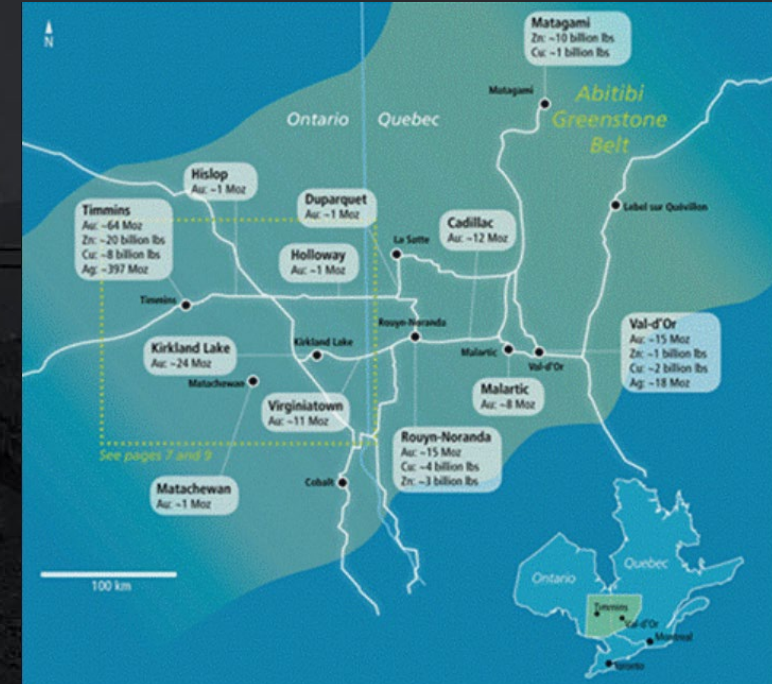

- ▶ Over 25 of experience in Canada's exploration and mining industry, including 11 years as an exploration geologist and senior geologist with Goldcorp.
- ▶ Expertise lies in grassroots to advanced mineral exploration, and advancing, marketing and financing junior exploration companies with dynamic potential. Has been instrumental in positioning the junior gold exploration company for both strategic and operational successes very rapidly under his guidance.
- ▶ President and CEO at Temas Resources Corp. and United Lithium Corp.

Projects

Xander is a Canadian Junior Nickel and Gold Explorer

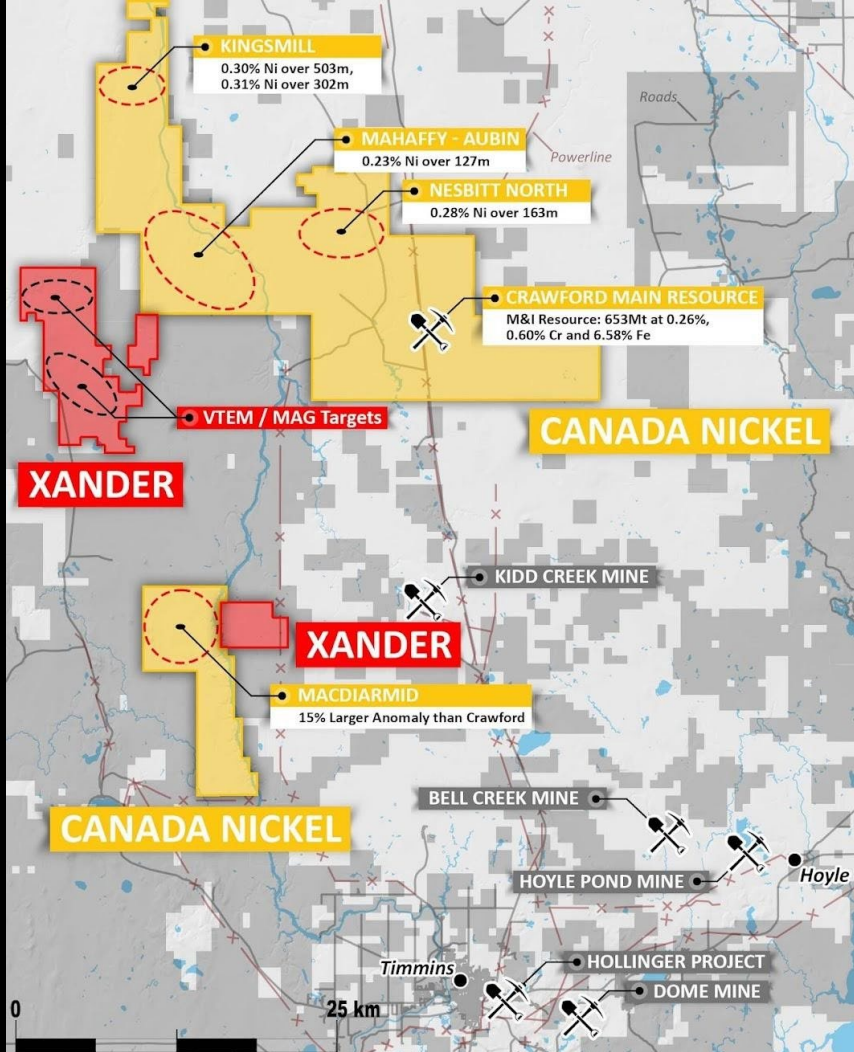

Xander is uniquely positioned in three active mining camps within the Abitibi Greenstone Belt with high-value properties adjacent to majors that are actively exploring and developing adjacent and near by discoveries.

The Abitibi Greenstone Belt is a region of Canada that extends from Wawa, Ontario to Val-d'or, Quebec. The gold belt is an established gold mining district having produced over 100 mines and 170 million ounces of gold since 1901.

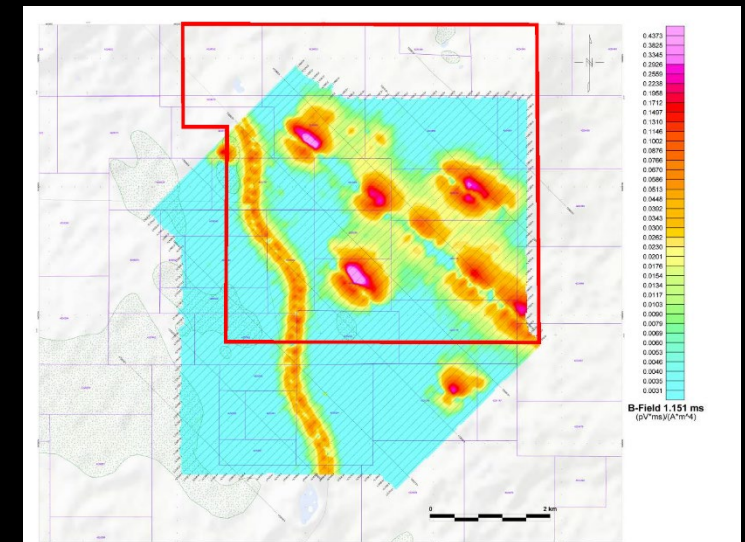

Timmins Nickel Project

- 286 claims totalling approximately 53 square kilometres in a well-established camp with infrastructure and a long history of mining
- The “North Block” consists of 236 claims located approximately 21 kilometres west of Canada Nickel Company’s (CNC’s) Crawford Project
- The “South Block” consists of 50 claims contiguous to Canada Nickel’s MacDiarmid Project
- Southwest of Kingsmill, Mahaffy-Aubin & Nesbitt North, projects actively being explored by CNC in 2021
- CNC recently acquired a further 13 additional target properties within a 95 kilometre radius of Crawford and is actively seeking out additional targets
- Potential to use Glencore’s nearby Kidd Creek Mill for smaller scale start-up

Timmins North - Summary

- The “North Block” consists of 236 claims located approximately 21 kilometres west of Canada Nickel Company’s (CNC’s) Crawford Project
- Historic exploration work includes limited drilling with 0.132% Ni
- Geophysical surveys have been completed, including VTEM, that have outlined a series of conductors to be drilled in 2022

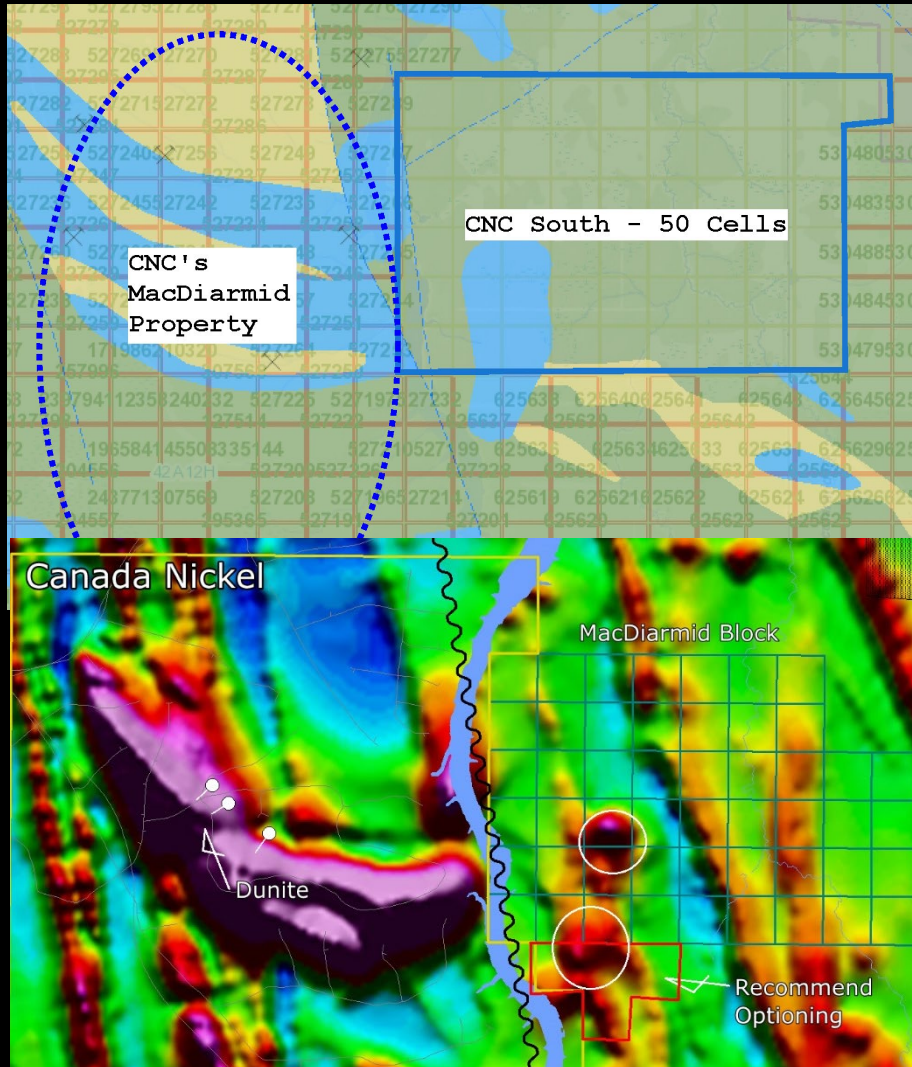

Timmins North – Exploration Plan

- 2021-2022 exploration budgeted for \$1,000,000.
- Xander has completed an initial reconnaissance visit to assess access for drilling. Soil samples were collected across 3 conductors for assessment using SGS' mobile metal ions technique.
- Xander will be completing further geophysical assessment using EarthEx's UAV-borne magnetic survey to refine the existing targets.
- Following completion of inversion modelling, Xander intends on completing a 10-hole 2,500 metre core drilling program to test the identified targets.

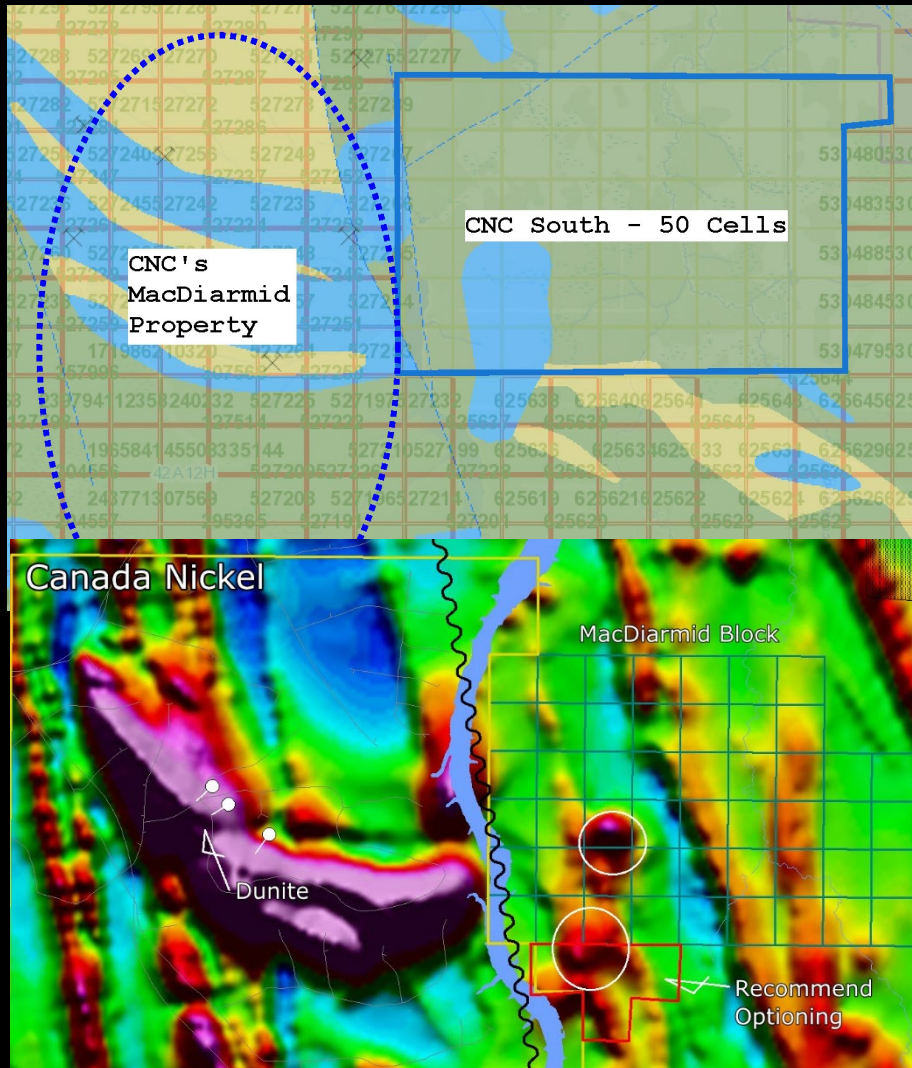

Timmins South – Summary

- The “South Block” consists of 50 claims contiguous to Canada Nickel’s MacDiarmid Project.
- Magnetic surveys have been completed, that have outlined a bullseye target to be drilled in 2022.
- Geophysical surveys reveal the MacDiarmid target to be approximately 1.8 kilometres long indicating a structural footprint averaging 400 meters in width and 15% larger than CNC’s original Crawford’s Main Zone discovery.

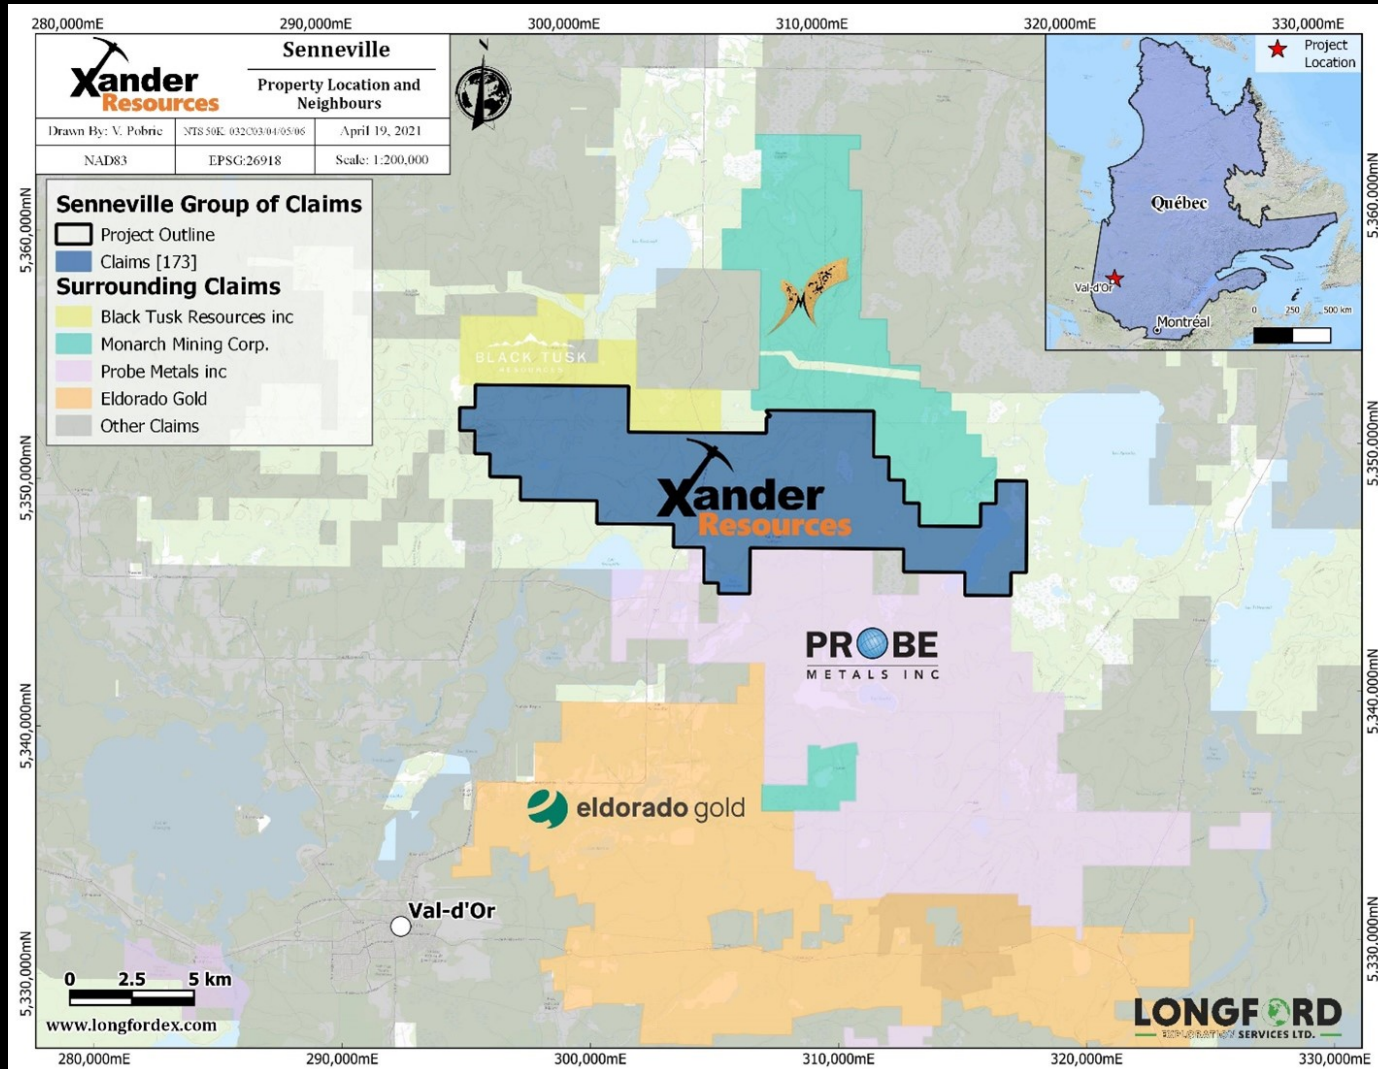

Timmins South – Exploration Plan

- 2021-2022 exploration budgeted for \$500,000.
- Xander has completed an initial reconnaissance visit to assess access for drilling.
- Xander will be completing geophysical assessment using Geotech's VTEM system to refine the existing targets.
- Following completion of inversion modelling, Xander intends on completing a 3-hole 1,200 metre core drilling program to test the identified target.

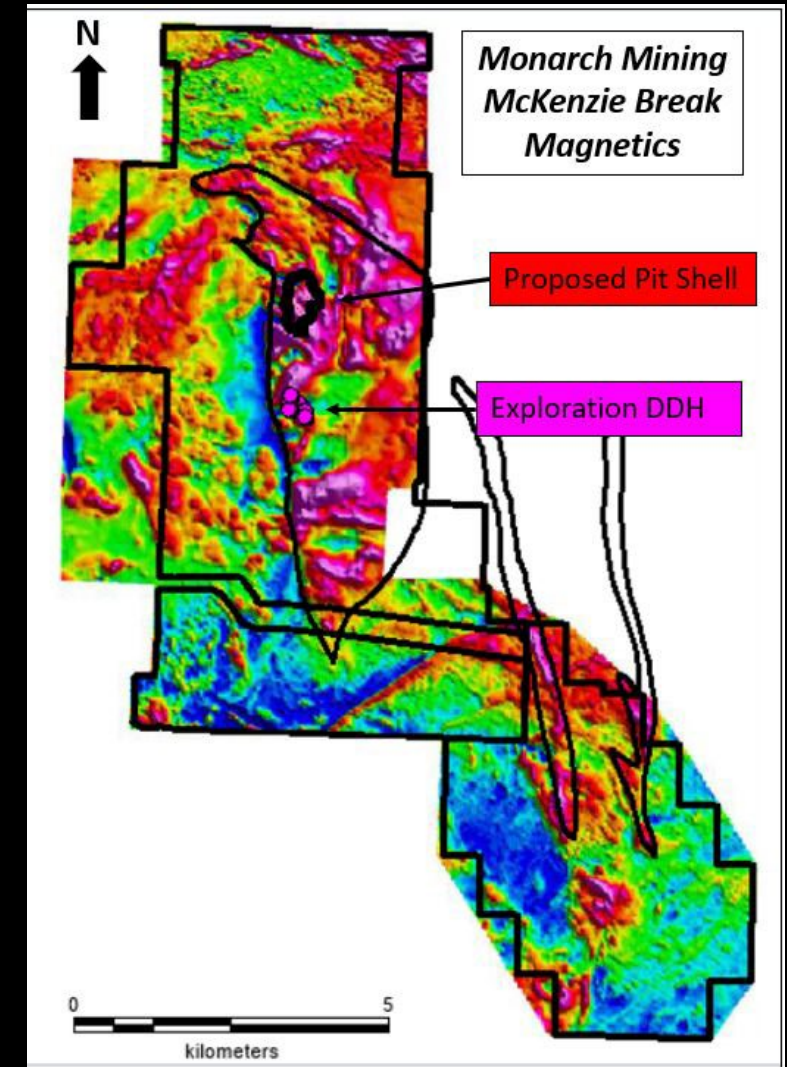

The Val-d'Or Gold Camp - Summary

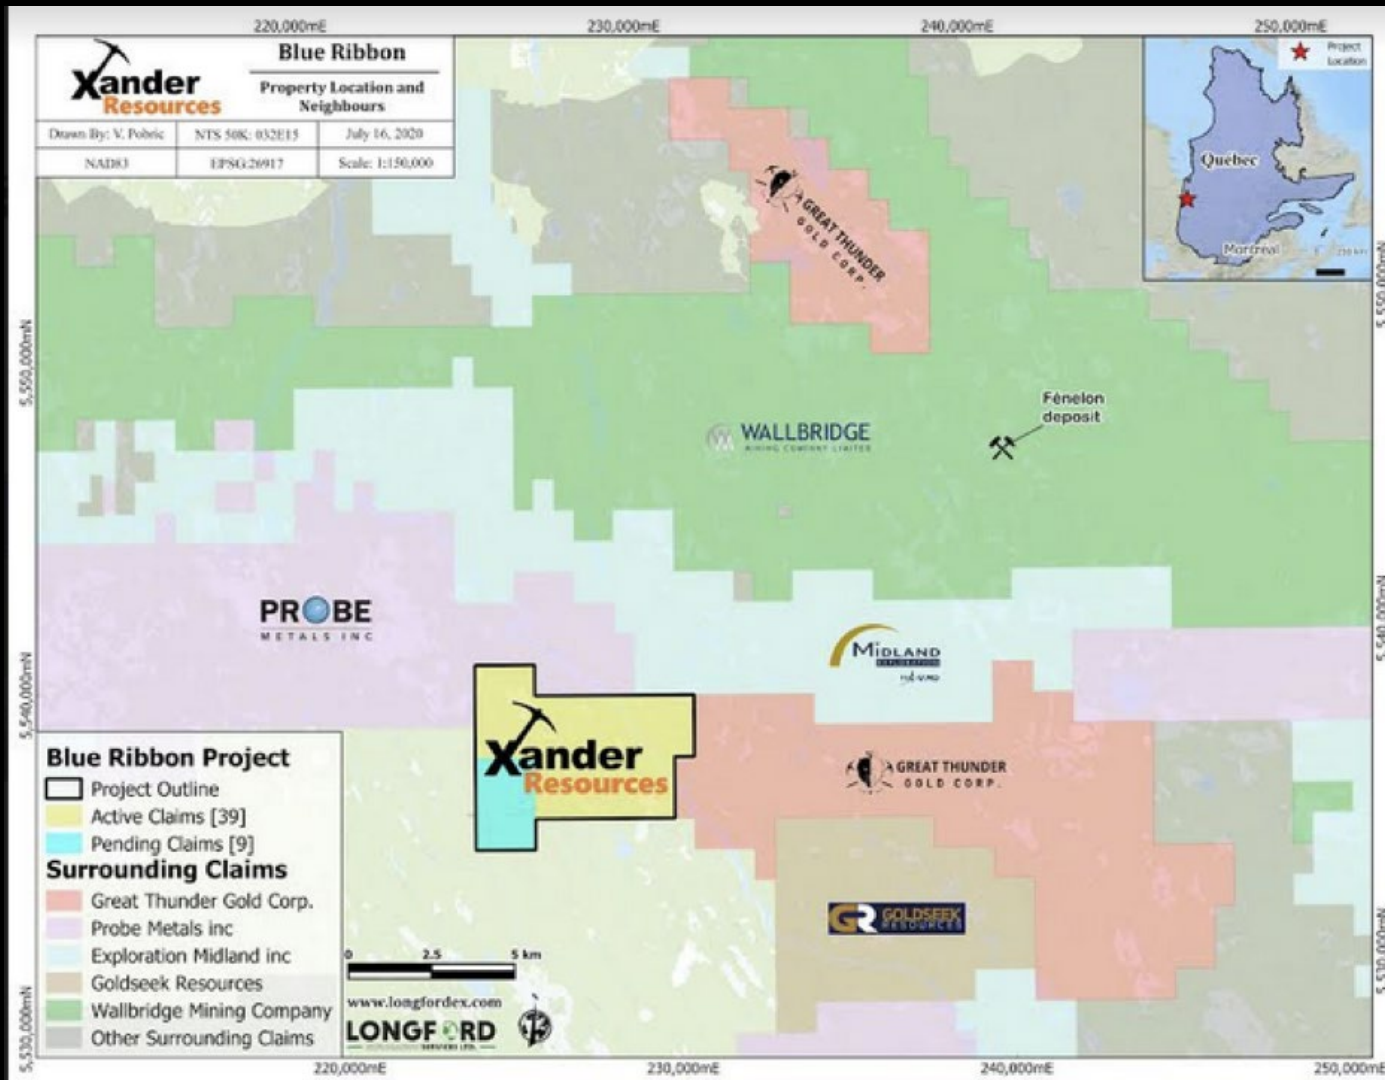

- 171 claims totalling over 102 square kilometres.
- Contiguous to Monarch Mining and Probe Metals and North of Eldorado Gold (formerly QMC).
- 2012 drill program identified 9.79 g/t Au and 11.03 g/t Au over 1.0 metres.
- 2021 drill program identified 18.15 g/t Au over 0.85 metres.
- Monarch's McKenzie Break intersections are <100 metres in depth.

The Val-d'Or Gold Camp – Exploration Plan

- 2021-2022 exploration budgeted for \$500,000.
- FlyVLF and complete inversion modelling to develop targets.
- Following completion of inversion modelling, Xander intends on completing a drill program on the identified targets. The priority will be Mackenzie-break style targets.

The Fenelon Gold Camp – Blue Ribbon

- Property located 11 km SW of Wallbridge Mining's Fenelon Mine Project where a recent mineral resource estimate of 543,700 indicated ounces of gold was announced.
- 48 claims covering approximately 23 square kilometres.
- Contiguous with Probe Metals, Midland Exploration and Great Thunder Gold.
- Only property in the Camp with Gold at surface.
- Future exploration plans consist of drilling at two (2) existing drill pads at the site of a historical showing and additional sites following the completion of airborne geophysics.

Capital Structure

As of Nov 23, 2021

Shares Outstanding	31,240,206
Options	3,064,021
Warrants	11,861,801
Convertible Debentures	200,000
Fully Diluted Shares	46,366,028

The Comparables

Market Cap (in Millions \$CAD)

As of 11/23/2021

	Xander Resources XND	\$4.29M
	Midland MD	\$41.9M
	Monarch Mining GBAR	\$56.9M
	Probe Metals PRB-X	\$245.2M
	Canada Nickel Company CNC	\$296.1M
	Wallbridge WM	\$371.8M
